

LITTLE RED KINGS

“Not only is this a brilliant album of its kind (and is, with luck, well capable of launching the band onto the international market), but I suspect these guys are really something live.”
Fatea Records Magazine

“Little Red Kings have delivered one of my favourite albums of the year” - *Powerplay*

“The material is strong, the musicianship masterful and production values are high throughout. Little Red Kings deserve a major breakthrough with this new album” - *Penny Black Music*

A vision of alternative roots rock brought the five band members together, and with a powerful live show they haven't looked back. Their music combines a gritty roots quality, reminiscent of British classic blues rock bands of the 70's, with strong melodies and elements of modern alternative rock. Following the release of their album 'Callous' in 2018 they have been increasing their festival appearances, in 2019 they played Ramblin Man Fair, Rock and Blues Festival, Bearded Theory, Southcider Festival and many more. With the release of their new album 'The Magic Show Part One' they have continued to gain more fans and their popularity has never been stronger.
